AS2 2pc. PTFE Piston Rotary Seals - Metric

EXAMPLE: AS270E-150MM			
Prefix	Groove Height		Outside Diameter
AS2	*70E	-	150MM
	6.3mm		150mm

*_ _ E- Number Refers to Groove Height
(58 = 2.2mm, 62 = 3.2mm, 66 =4.2mm, 70 =6.3mm, 74 = 8.1mm)

These piston rotary swivel seals are designed to be used in rotary swivels for sealing between sections. Standard material is carbon/graphite-filled PTFE for low friction and great wear properties. Expanders are made of 70 durometer nitrile. Oil grooves in the cap ensure continuous lubrication of the seal. Also available in other compounds.

Temperature: -40° to 225°F Pressure: 0 to 4,350 PSI
