

MD Rod Squeeze Seals

Style MD rod seals utilize a fabric reinforced rubber base combined with a POM backup for extrusion resistance, and a homogeneous nitrile sealing lip, enabling this seal to handle higher pressures than most other all-rubber seals. The “squeeze” design provides for good sealability.

Temperature: -22F to +248F

Pressure: 0 to 6000 psi

Part Number	Inside Dia. d		Outside Dia. D		Height L	Price
MD-16X24X6.5-E	16	X	24	X	6.5	\$ 12.93
