

Ready Made Vee Packing Sets

All sets in this section are supplied with both Hytrel, fabric and rubber vees, and nylon adapters. Hytrel vees are added to these sets to aid in low pressure sealing, and to wipe the rod completely dry. Nylon adapters are superior to fabric and rubber for extrusion resistance. Pressure ratings increase with the number of vee rings. Consult sales for more information.

For your convenience, packings in the following sections can be assorted.

Temperature: -40 to 225F
