

A41 Urethane & Nitrile Wipers - Metric

ALTERNATIVE SEALS:
A40, AY, DA17

EXAMPLE: A41-16X24X4 P90

Prefix	Inside Diameter		Outside Diameter		Base Height	Suffix
A41-	16	x	24	x	4	P90
	16mm		24mm		4mm	90A PU

A41 series European wipers are made from either 90 durometer nitrile or urethane (Designated by P90 in the part number). The function of the A41 style wiper is to keep dust, dirt, grains of sand, and metal chips from penetrating the rod gland. This is achieved by a special design which prevents the development of chamfers,

protects the guiding parts, and extends the working life of the seals. Oversized diameters ensure a tight fit in the groove recess, thus preventing the penetration of foreign particles and dampness.

Temperature: -40° to 230°F
